VersaMist® PORTABLE LOW PRESSURE MISTING FAN FILL IT UP, PLUG IT IN, TURN IT ON AND CHILL!™

The VersaMist® reduces air temperature by as much as 30°F through low-pressure mist technology that combines fine mist and high speed air movement for highly effective "person cooling." The 18", three-speed fan provides up to seven hours of uninterrupted use and is ergonomically designed for portability.

- 14-gallon capacity built-in water reservoir for portability
- Adjustable fan head for targeted cooling
- Quick and effortless setup, cleaning, and storage
- 2-year limited warranty

EVAPORATIVE COOLER AND CIRCULATION FANS WITH IONIZATION

The Schaefer Defender™ Series has radically changed indoor ventilation with the only portable, self-cleaning ionizing air purification system on the market with the power to cool any location.

With the increasing awareness around airborne contaminants and particles, the all-new Schaefer Defender Series with NPBI® Technology adds an additional element of protection from harmful pathogens. This creates a safer and cleaner working environment.

REMINGTON | **AIRETrex³⁶⁵**

AIR SANITIZER WITH UV-C LIGHT

The Remington Airtrex 365™ Air Sanitizer all starts with an intense UV-C light. Add to this a unique reflective metal interior to further increase the light's intensity and dwell time and you have a combination that effectively destroys pathogens. In addition, through use of a charcoal filter, the Airtrex 365 circulates air more quickly, keeping any space sanitized. And it does all of this while running quietly and without emitting any harmful chemicals.

Model	Wavelength	Wattage	Amps	Volts	dBA
REM-7365UV-120	UV-C (4.8 eV)	35W	.38A	120V	<50 dBA

BIGDOG®**72" INDUSTRIAL CIRCULATION FAN**

The BigDog® provides the cooling employees need in the summer while de-stratifying in the winter to increase comfort and lower energy costs. One Bigdog fan replaces up to 20 smaller circulation fans and fits conveniently in corridors and between aisle racking.

- Extremely quiet
- Directional airflow
- Personnel cooling for over a 200 x 35 foot area
- Best-in-class energy efficiency of 40 CFM/W
- 2-year limited warranty

**SCHAEFER****FIBERGLASS EXHAUST FANS**

Schaefer's fiberglass exhaust fans are designed and built to be highly efficient (high cfm/watt), long-lived and competitively priced for agricultural and other applications. Fiberglass exhaust fans are used worldwide to exhaust high volumes of air from factories, warehouses, garages and other locations, where building owners value low capital cost and low operating cost.

- Designed for high airflow and high efficiency
- Totally enclosed, thermally protected motors for safety and long life
- Easy belt replacement and optional Remote Lubrication System for minimal maintenance
- Self-adjusting belt tensioner for easy adjustment
- Aluminum inlet shutter and powder-coated outlet guard standard
- Suitable for buildings with up to 12" wall thickness
- Ship fully assembled

DIESEL/KEROSENE SILENTDRIVE® FORCED AIR TORPEDO HEATERS

This SilentDrive® answers the call for a heater that is both quieter and easier to maintain and operate. The next step forward for kerosene torpedo heater design, our SilentDrive allows for 50% less noise and 46% less electricity consumption.

- Half the noise of traditional KFA
- Best-in-class cold starting at -4°F
- Significantly reduced maintenance
- Multi-fuel capable: #1 Diesel, Kerosene, Jet A Fuel, #1 Fuel Oil
- 1-year limited warranty

PROPANE AND NATURAL GAS FORCED AIR TORPEDO HEATERS

Master's propane torpedo heaters offer a convenient, easily portable alternative to our larger kerosene units. Master's lineup of propane forced air heaters delivers effective heating solutions for areas 1,000 sq. ft. to 9,300 sq. ft. in size.

- Wide range of sizes and two types of fuel: 40,000–375,000 BTU, propane or natural gas
- Composite fully enclosed gas-control housing
- Adjustable heat settings, except MH-40-GFA
- Portable and lightweight
- 1-year limited warranty

DIESEL/KEROSENE FORCED-AIR RADIANT HEATERS

Our lineup of Master® radiant heaters combines forced-air convection heat with radiant heat, warming objects directly. While it takes some time for hot air to mix with cold air, the radiant heat is working as soon as the heat plate starts glowing.

- Half the noise of traditional KFAs
- Diagnostic light and electronic controls
- Easily portable
- Multi-fuel capable: #1 & 2 Diesel, Kerosene, JP8/Jet A Fuel, #1 & 2 Fuel Oil
- 1-year limited warranty

PROPANE CONVECTION HEATERS

Master's propane convection heaters are an efficient, cost-effective way to heat open spaces up to 5,000 sq. ft. Convection heaters emit a large amount of radiant heat, sort of like having a bonfire but without the safety hazards of a large open flame.

- 360° Heating radius
- Quick assembly, 2-piece burn chamber
- Auto-piezo ignition
- 10-Foot hose and regulator included
- 1-year limited warranty

MH-80V-LPC-A
