

## BIGDOG®

### 72" INDUSTRIAL CIRCULATION FAN

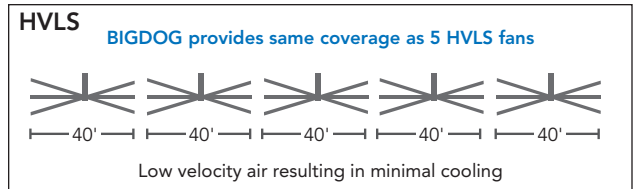

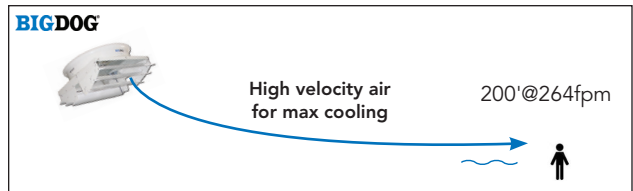

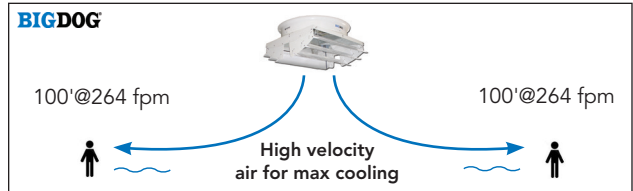

Do you have a big space that requires a lot of air circulation? Look no further than the BIGDOG®. Unlike the typical ceiling fan that moves a lot of air at low speeds and results in minimal cooling, the BIGDOG moves massive amounts of air at high speeds for extremely efficient and effective cooling year round!

The ultimate multitasker, the BIGDOG will provide the cooling employees need in the summer to stay safe and more productive, while de-stratifying (pushing warm air down from the ceiling) in the winter to increase comfort and lower energy costs.
